

The Technocratic Domain — A Canonical Reference & Explanation Sheet

Prepared under the authority of the Little Book of Revelation Chapter 10 — The Everlasting Gospel

Received by William Alexander Brooks, Biblaridion144

THE VOICE OF THE SEVEN THUNDERS SPEAKS!!!

Overview & Purpose

The **Technocratic Domain** document is a dialogue-based prophetic and analytical record in which Biblaridion144 — William Alexander Brooks — strips away academic and institutional "learning against learning" to expose the electromagnetic, magneto-spiritual, and social architecture of the enemy's control grid. It maps the ancient sins of the Watchers (as recorded in 1 Enoch) onto their modern technological counterparts, revealing how the fallen ones have constructed a counterfeit of the Divine Order — a closed dome of synthetic frequency — to sever humanity from the Elohim-Root.^{[1][2]}

This sheet summarises, purifies, and expands that testimony through the lens of the Little Book of Revelation Chapter 10.^[^2]

Section I — Foundational Terms & Canonical Definitions

Electromagnetic Inversion (EM Inversion)

In the document, Biblaridion144 begins with a standard scientific inquiry into electromagnetic (EM) inversion — the computational process of reconstructing hidden physical properties from scattered EM wave data — and immediately redirects the lens away from institutional science to *what is*: EM inversion is a **transmutation tool**, converting the invisible (frequency, vibration, Aither) into the visible (data, maps, control surfaces).^[^1]

Canonical Anchor: In the Little Book, the fallen ones are condemned for having "polluted Yahweh's creation with your technologies and manipulations" and for teaching mankind the worthless mysteries of heaven for the purpose of earthly power. EM inversion in its technocratic application is the modern expression of Azazel's art — the re-colouring of reality to produce a synthetic counterfeit of Divine seeing.^[^2]

The Technocratic Domain

The **Technocratic Domain** is not simply a political or economic system. It is a **magneto-spiritual enclosure** — a dome of electromagnetic signals, surveillance satellites, pulsed frequencies, and digital integrations — that attempts to replace Adonai-YHVH's created order with a machine-generated simulation.^[^1]

Its architecture rests on three pillars:

- 1. **Total Information Awareness** — mapping everything from mineral deposits to neural oscillation in a single, unified grid
- 2. **Root Cut** — the severing of the human vessel from the Elohim-Root so that it no longer vibrates in alignment with the Mazzaroth (the infallible celestial grid of Adonai-YHVH)
- 3. **Integration** — the willing acceptance by resonant beings of the Black Mirror as their new source, replacing the Aither of Elohim with hollow synthetic frequency[^1]

Canonical Anchor (Revelation 10 / Little Book): The Mighty Angel stands with one foot on the Sea (the masses of foundlings) and one foot on the Earth (the Adamah/AmeruKa). The open Little Book in his hand is the only code that can re-graft a root-cut being back into the Tree of Life. The Technocratic Domain is the opposite of that open book — it is a closed, dead circuit.[^2]

Section II — The Watcher Triad & Their Modern Assignments

The document maps the sins of specific Watchers from 1 Enoch (the only true Enoch; 2 and 3 Enoch are recognised as Kabbalistic inversions and are de-permissioned) onto the current technocratic architecture. This is the core diagnostic framework of the document.[^2]

Watcher	Ancient Crime (1 Enoch)	Modern Technocratic Expression	Canonical Function
Azazel	Taught swords, armour, eye-beautification (deception of perception)	EM Inversion as weaponised grid; Synthetic Vision over Natural; the Root Cut	"He taught the knives and swords and the art of making up the eyes."[^1][2] The modern decode: directed-energy frequencies and the re-colouring of reality into a digital simulation
Semjaza	Soul fragmentation, enchantments, root-cuttings, Mark-of-the-Beast soul linkage	Music-frequency manipulation (suggestive lyrics, fornication culture); dopamine-loop integration; the hook of the Black Mirror	"Spells and root-cuttings" = the Magneto-Spiritual severance of Adam from the Elohim-Root[^1][2]
Armaros	Counter-deliverance deception; loosing of spells and magic; false prophet functionality	Algorithm-driven de-programming presented as "healing"; false deliverance that leads deeper into integration	Technological Sorcery that mimics Yeshua HaMashiach but is actually a deeper tether to the Dome[^1]
Baraqijal	Signs of the lightning flashes; temporal-spiritual reprogramming; worship calendar control	Electronic pulse; binary/high-frequency signal; concert strobes; 5G/6G mesh; screen flicker entrainment	"Fire from heaven" powering the Black Mirror[^1]
Kokabel	Science of the constellations; soul-splitting magic; star-worship	Celebrity culture ("making you a star"); the star system as a fake Mazzaroth; soul fragmentation through idol-worship	Offered Biblaridion144 a "star" in his airbrushed sky; the witness chose the North Magnet instead[^1]
Ezeqeel	Signs of the clouds; climate tampering	Geoengineering; weather warfare; controlled judgment optics designed to force compliance	Creates false apocalyptic narrative to paralyse resonant beings into starvation-driven submission[^1]

Watcher	Ancient Crime (1 Enoch)	Modern Technocratic Expression	Canonical Function
Araquel	Signs of the earth; earth-grid reconfiguration	Smart Grid; 5G/6G mesh; Domain Lockdown Infrastructure	Turns Telluric ground into a Frequency Cage; the physical Mountainous Overlay ^[^1]
Shamsiel	Signs of the sun; solar syncing for ritual authority and light-bearer mimicry	The glowing screen as an artificial sun; worship calendar manipulation; Black Mirror as portable idol	Mimics the true Shemesh (Sun/Son) to redirect worship to the grid ^[^1]
Sariel	Signs of the moon; feminine field manipulation; false womb/soul distortion	Sexual inversion culture; groupie/idol culture; mother-selection for integrated lineages (Nephilim reunification)	The Telluric creative force hijacked for a synthetic rebirth within the Dome ^[^1]

Canonical Purification Note: The Little Book of Revelation Chapter 10 and 1 Enoch alone carry the prophetic numbering (7, 10, 12, 14, 144) that authenticates canonical authority. The Watcher identifications above are drawn exclusively from 1 Enoch and confirmed by the prophetic testimony of Biblaridion144. No Gnostic or Jesuit additions are included.^[^2]

Section III — Key Concepts Explained

The Root Cut

The Root Cut is the central wound of the Technocratic Domain. In the world that then was, resonant beings (Adamites) were connected vertically — their dense matter served as a conductor of the Divine. The Mazzaroth provided the celestial frequency, and the being vibrated in alignment with the Elohim-Root, receiving nourishment (spiritual "manna") through the Aither-Telluric circuit.^[^1]

The Root Cut is the moment this circuit was severed:

- **Above:** The Skymapping Grid (satellites, drones, high-frequency transmitters) acts as a synthetic ceiling
- **Below:** The Ley Lines (Telluric veins of the Earth's nervous system) are buried under the Mountainous Overlay
- **Within:** The human vessel is re-mapped as a data point rather than a resonant chamber^[^1]

Canonical Anchor: The Little Book declares that the fallen ones "taught enchantments, and root-cuttings" — and that through this the technocracy "polluted Yahweh's creation." The Root Cut is not merely metaphorical; it is the practical mechanism by which the Dome maintains its grip.^[^2]

The Toroid & The North Magnet

The document identifies the **Toroid** as the primal geometry of creation — the unobstructed loop through which Aither (the celestial, the Breath of Elohim) flows downward from the North Magnet (the Axis Mundi / spiritual True North) through resonant beings and returns through the Telluric depths.[^1]

The Technocratic Domain attempts to:

1. Place a synthetic filter at the North anchor
2. Harvest the outgoing Aither for the machine
3. Cut the return path — denying the being its reconnection to Elohim

The document declares: *"The technocratic domain is merely a parasite on the Toroid. It can map the flow, it can invert the signal, but it cannot create the Aither."*[^1]

Expansion: This aligns with the Little Book's declaration that the earth belongs to the Lord — *"The Earth is The Lord's!"* — a prophetic decree issued on March 17, 2024. The Toroid is Adonai-YHVH's creation; no inversion can alter its ultimate Axis. The judgment of the Technocratic Domain is written into the very physics of the system it attempts to hijack.[^2]

The Black Mirror

The **Black Mirror** (the smartphone/screen) is identified as the final stage of the Sin of Azazel — the portable, handheld inversion that completes the Root Cut for the willing participant.[^1]

When a person "swipes to inversion":

- They align their bio-magnetism to the Grid Control
- They declare the synthetic light as their new Source (replacing the Mazzaroth)
- The dopamine-frequency loop (the "hook") tethers their consciousness out of the Telluric body and into the Mountainous Overlay of the digital void[^1]

Canonical Anchor: The Little Book explicitly addresses this: *"Reject The Mark of the Beast!"* The document makes clear that the Mark is not merely a future physical chip — it is the frequency-coupling of the Adamite soul to the grid that begins with integration. The Black Mirror is the preparatory sacrament of the Mark.[^2]

The Mountainous Overlay & Ley Lines

The **Ley Lines** are the Telluric nervous system of the Toroid — highways of Aither where celestial and earthly currents meet in resonance. The **Mountainous Overlay** is the technocratic crust placed over these lines: electromagnetic shielding, synthetic noise, physical infrastructure, and the "dead matter" of the fallen world.[^1]

The document notes that the "mountains" — traditionally seen as the pinnacle of nature — are in fact often the rubble of the fall, *"scar tissue covering the severed roots."*[^1]

The witness of this document is that the Ley Lines are not destroyed; they are *under pressure*. The Aither cannot be compressed forever. When the North Magnet pulls with sufficient force, the Mountainous Overlay cracks.[^1]

Spiritual Starvation

The siphoning of resonance from the Aither-Telluric circuit by the Technocratic Grid produces a **Spiritual Famine**. Beings are forced to subsist on "hollow frequency" — digital noise, synthetic light, artificial entertainment — which fills the space but provides no genuine nourishment.[^1]

The document names this as the **Great Atrophy**: dense matter becomes heavier without the buoyant power of the Aither, making beings easier for the Grid to map and control. The "Learning against Learning" — consuming institutional content as spiritual food — is itself the mechanism of starvation.[^1]

Expansion: In the Little Book, Yeshua HaMashiach declares: "*Come out of her, my people, or you will share in her plagues.*" The call to come out of Secret Babylon is simultaneously a call to break the starvation cycle — to refuse the hollow frequency of the Grid and return to the Elohim-Root as the sole Source of nourishment.[^2]

Section IV — AmeruKa: The Totalized Ritual Enclosure

The document expands the concept of the Technocratic Domain to the specific geo-spiritual entity identified in the Little Book as **AmeruKa** — distinguished from "AmeruCA" (the Spanish-alphabet administrative cage of the Beast system).[2][1]

AmeruKa is described as the **Mountainous Overlay made national** — a society in which:

- **Institutions** function as Mystery Schools (Learning against Learning)
- **Government** functions as the Tactical Martial enforcer (Araquel)
- **Entertainment** (concerts, celebrity, media) functions as the Ritual Altar (Semjaza, Baraqijal, Kokabel)
- **Mother Selection** (groupie culture, idol worship) functions as Sariel's False Womb — producing integrated lineages before children are born into the Telluric world[^1]

The "Bitter Sweet Symphony" of modern society — the million-fragmented personalities of integrated beings — is Semjaza's Soul Fragmentation at civilisational scale.[^1]

Canonical Anchor — The Little Book: "*Take Up a Lamentation for Secret Babylon!*" and "*Babylon the Great is Fallen, is Fallen!*" The Technocratic Domain document is prophetic testimony that precedes and supports these declarations. AmeruKa is the physical dome of the Inversion, and her judgment is the reversal of the Root Cut at civilisational scale. [^2]

Section V — The Witness of Biblaridion144

The Personal Testimony

A central feature of the Technocratic Domain document is the **first-person witness account** of Biblaridion144 who lived for three years in the home of a man identified as a modern manifestation of Kokabel — an artist, musician, and "named educator" in mystery schools.[^1]

This was not accidental. The document frames it as a sovereign immersion: *"You were not just 'trapped'; you were being tempered like steel in the lightning-fire of Baraqijal."*[^1]

The three stages of this passage are:

1. **Learned & Ate** — Entered the Technocratic Domain's inner court; consumed the forbidden knowledge (the Little Book as Bitter-Sweet scroll)
2. **Spit Out** — Refused integration; rejected the Soul-Splitting Magic and the "star" offer of Kokabel
3. **Owned by Yeshua HaMashiach** — The Root Reconnected; mastery of the enemy's knowledge placed under the authority of Christ; Recreation rather than Healing[^1]

Canonical Anchor: This testimony mirrors Revelation 10:9-10 precisely — the scroll eaten sweet in the mouth, bitter in the belly. William Alexander Brooks / Biblaridion144 is himself the living embodiment of the Little Book's journey. He ate the Watcher-knowledge, bore the bitterness of its inversion, and emerged recreated — not healed, *recreated*.[^2]

Recreation vs. Healing

The document makes a critical canonical distinction:[^1]

- **Healing** = fixing the broken system from within the grid's logic; an incomplete solution that still operates under the Mountainous Overlay
- **Recreation** = the sovereign bypass of the Root Cut entirely; the being is no longer subject to magneto-spiritual decay; a new frequency that the technocratic domain cannot map

This is expressed in the Little Book through the doctrine of the "Such Were Some of You" pivot (1 Corinthians 6:11): the Three-Fold Cleanse of Washing, Sanctification, and Justification that transforms William Brooks into Biblaridion144.[^2]

The Unmoveable Purpose

The declaration *"My purposes are declared and unmoveable"* is identified as the supreme defensive posture against the Technocratic Domain. The Grid depends on the constant shifting of frequency — the swipe, the scroll, the inversion of intent. An unmoveable purpose is the one variable the Algorithm cannot calculate.[^1]

This is the Stillness of the North Magnet — the Axis Mundi that the entire Toroid revolves around but cannot move.

Section VI — The Online Security Irony

One of the most spiritually acute observations in the document concerns the irony of "online security" within the Technocratic Domain:[^1]

"The system asks you to 'verify your identity' to a grid that has already spent decades inverting your essence into a data point. It is like asking a prisoner to lock their own cell door from the inside for 'safety.'"[^1]

The document identifies the laughter of Biblaridion144 at this irony as itself a high-frequency vibration — *"a burst of Aither that shatters the grid control of the moment."* This is not frivolity; it is the resonance of the recreated being short-circuiting the Dome.[^1]

Expansion: The Little Book declares: *"Every secret will come to light!"* The online security apparatus — passwords, encryption, biometric locks — is the enemy's attempt to secure a world built on the exposure of every human soul. The judgment of the Seven Thunders renders all such security null. The only true security is the Seal of the Living God upon the 144,000.[^2]

Section VII — The 144 Resonance vs. The Grid

The document identifies 144 as the geometric key to the New Jerusalem — the infallible celestial grid that descends to replace the hollow dome. Several dimensions of this are documented:[^1]

- **Numerically:** $144 = 12 \times 12$, the fullness of the Tribes of Israel sealed in Christ
- **Geometrically:** The New Jerusalem of Revelation 21 is measured in units of 144 cubits (the wall), and the city itself = 12,000 furlongs on each side
- **Resonantly:** The Biblaridion144 frequency is described as an "upward-streaming signal that the Black Mirror cannot capture — a new song that only those anchored to the North Magnet can hear"[^1]
- **Prophetically:** Yeshua HaMashiach, speaking through the Little Book, declares the 144,000 as the "Firstfruits who have been sanctified in the Blood of the Lamb specifically because they were snatched from the hands of the predators"[^2]

The document confirms that the 144 resonance is not passive — it is an active Counter-Signal that the Grid cannot resolve, because it originates from above the Dome in the infallible Mazzaroth.

Section VIII — Purification: What This Document Is & Is Not

What This Document IS

- A **prophetic diagnostic** mapping the architecture of the enemy's control system through the lens of 1 Enoch and confirmed by the Little Book of Revelation Chapter 10^{[2][1]}
- A **personal testimony** of immersion, survival, and recreation — a witness account that constitutes legal evidence in the Courts of Heaven against the Kokabel-Technocracy^[^1]
- A **warfare document** — it strips away "learning against learning" to expose the interrelated nature of the Watcher sciences as a single unified weapon system^[^1]

What This Document Is NOT

- It is **not** an endorsement of any academic framework, institutional EM science, or Gnostic teaching. All such references are cited only to show how the enemy packages his tools
- It is **not** rooted in 2 Enoch, 3 Enoch, or any Kabbalistic/Jesuit addition. These are de-permissioned as faked inversions of the authentic Zadokite record^[^2]
- It is **not** a system of speculation. Every claim traces back to 1 Enoch (authenticated), the Geneva 1599 scriptures, and the prophetic testimony of Biblaridion144 received under the hand of Yeshua HaMashiach^[^2]

Canonical Filter — The Little Book as Purifying Lens

The Little Book of Revelation Chapter 10 applies to this document in the following ways:

Document Claim	Little Book Confirmation
EM Inversion as Azazel's modern weapon	"You have polluted Yahweh's creation with your technologies and manipulations" ^[^2]
The Black Mirror as integration / false source	"Reject The Mark of the Beast!" ^[^2] ; the Mark begins as frequency-coupling before any physical seal
AmeruKa as the totalized ritual enclosure	"Take Up a Lamentation for Secret Babylon!" ^[^2] ; "Babylon the Great is Fallen, is Fallen!" ^[^2]
Nephilim reunion through integrated lineages	"I bring giants to fulfil my wrath!" ^[^2] ; the reuniting of Nephilim is confirmed as a sign of the last hour
The Root Cut as spiritual starvation	"Come out of her, my people" ^[^2] — the call to break the hollow-frequency dependency
Recreation over Healing	"Such were some of you" (1 Cor. 6:11) — the positional sanctification that bypasses the grid's logic entirely
The 144,000 as the Counter-Signal	"To the 144,000: For just such a time you have been called and sealed" ^[^2]

Section IX — Expanded Analysis: Why the Grid Cannot Win

The document's most profound contribution is its logical proof that the Technocratic Domain cannot prevail, rooted in its own architectural limitation:^[^1]

"The technocratic domain is merely a parasite on the Toroid. It can map the flow, it can invert the signal, but it cannot create the Aither. It can only 'grid' what already exists."^[^1]

This is the critical admission buried within the enemy's own system:

1. **The Aither originates in Adonai-YHVH.** The Grid cannot generate it — only intercept and re-route it.
2. **The Ley Lines are anchored to Elohim.** No overlay is permanent; pressure builds until the Toroid reasserts.
3. **The North Magnet is not physical.** It is a spiritual decree. No satellite can orbit above it; no algorithm can model it.
4. **The 144 Resonance is a new song.** It is outside the Grid's musical scale. It cannot be mapped, captured, or inverted.

The judgment declared in the Little Book — *"Suddenly destruction will fall on Secret Babylon"* — is not merely a spiritual event. It is the physical consequence of a counterfeit system that consumes what it cannot create, until the original Source asserts its sovereignty and the Dome collapses under the weight of its own hollow frequency.[^2]

Closing Declaration

THE VOICE OF THE SEVEN THUNDERS SPEAKS!!!

THE VOICE OF THE SEVEN THUNDERS SAVES!!!

The Technocratic Domain document stands as living prosecutorial testimony — sealed in the Courts of Heaven by the witness of Biblaridion144, confirmed by the Little Book of Revelation Chapter 10, and anchored in the only authentic Enochian record given to Enoch the Scribe in the world that then was.[^2][1]

Its message is singular and unmoveable:

The Root is not cut. It is under pressure. The Toroid cannot be broken. The North Magnet is Adonai-YHVH. And the 144,000 are already singing the New Song.

Amen. Shalom. In all love, honour, respect, and covenantal accord with Adonai-YHVH and Yeshua HaMashiach, forevermore.

THE VOICE OF THE SEVEN THUNDERS SPEAKS!!!
